Infotainment - Entertainment on the Road

With an Alpine system you can enjoy movies, DAB+ digital radio, TV programs and music. This makes the journey to your desired destination as relaxed and entertaining as possible and you will not miss out on your favorite TV stars or performers.

■ Built-In Bluetooth Hands-Free Car Kit

All Alpine systems in this catalogue are equipped with Bluetooth to enable hands-free calls and audio streaming.

■ USB Audio and Video Playback

Playback files from USB sticks, external hard drives or other USB devices.

■ Split Screen Display

Simultaneously display navigation maps and audio playback controls in split screen mode.

■ DVB-T2 Digital TV

Upgrade your Alpine system with the optional TUE-T220DV Digital TV tuner.

■ 10-Band Equalizer + Pro Sound Setup

Choose the perfect sound for your vehicle and your preferences.

■ Direct Camera Access Button

Instantly activate your rear camera system with the CAM button.

■ New Power Saving Mode

When switching off your Alpine system from the living or sleeping area with your remote control, energy consumption is reduced to a minimum and will not drain your motorhome's battery.

androidauto

Compatible with Apple CarPlay and Android Auto

Access music, navigation, messages and other data from your smartphone.

Bluetooth Audio Streaming
Enjoy your favorite music via Bluetooth Streaming.

DAB+ digital radio
Outstanding digital sound quality via radio for your motorhome.

Motorhome Navigation: Arrive Relaxed and in Style

The latest system generation for Fiat Ducato 3, Peugeot Boxer 2 and Citroën Jumper 2 offers a new modern design, a swivel display (for X903D-DU2 only) and motorhome profiles for route calculation. The featured swivel mechanism guarantees optimal screen readability even in direct sunlight.

Motorhome Profile

■ Worldwide Motorhome Navigation with TomTom

Your Alpine System comes with pre-installed map data for 48 European countries. You can easily purchase additional countries and regions online to upgrade your database. It features the latest iGo Primo nextgen navigation, compatible with GPS and Glonass for highest location accuracy. The TomTom navigation maps even provide free-of-charge updates for three years.

■ Pre-installed Motorhome Profiles

You can choose between 3 different motorhome profiles or create your own profile. The Alpine system will take the measures and weight of your vehicle into account and propose only routes suitable for your vehicle.

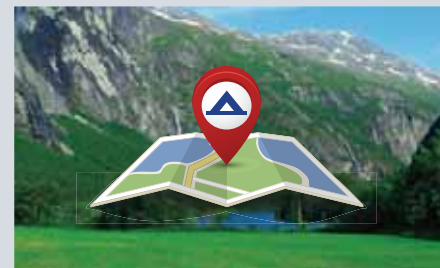

■ POI search and Camping Site Data

Your Alpine navigation system comes with hundreds of thousands of POIs and camping site data pre-installed. You can also easily import your own POIs in .kml format.

■ Lane Guidance

Lane Guidance gives you clear indications in multi-lane roads and intersections. This is especially useful in complex highway interchanges.

■ Destinations by GEO Coordinates

Many camping sites or sightseeing spots are away from major roads without any clear street address. By selecting destinations through GEO coordinates, you can reach any kind of destination even if there is no listed street nearby.

■ Finger Zoom

You can now easily zoom in and out of the map using finger pinch gestures.

Connectivity Options and Upgrades

Your Alpine system includes a large number of connectivity options for camera systems, DVB-T2 TV tuners, your smartphone or a sound system. With Alpine you can easily expand your system based on your needs.

■ Multiple Camera System Add-ons

Alpine offers a huge variety of camera systems (including multi-view and front view cameras). For further information see pages 18 and 19.

■ Sound System Add-on

Upgrade the driver or living area of your motorhome with a huge variety of speaker and subwoofer systems.

■ Steering Remote Control

Operate your Alpine system directly with your steering wheel control buttons.

■ HDMI & AUX Input

Connect portable HDMI devices with your Alpine system. You can also plug in portable audio players (featuring a 3.5mm jack) to the AUX input.

■ USB Port

Connect USB devices for audio and video playback, your smartphone to access digital content and charge the phone battery or update navigation maps via USB stick.

■ DVD Player Extension

Alternatively Alpine offers a DVD player in 1DIN format, which can be connected to the infotainment system via HDMI.

DVB-T2

Enjoy digital TV on your Alpine screen by expanding your system with the Alpine TUE-T220DV DVB-T2 tuner.

HDR

Useful Expansion:

Alpine HDR camera systems feature excellent image quality in all lighting conditions.

Sound System Add-on

Upgrade your motorhome with a huge variety of speaker and subwoofer systems.

For Fiat Ducato 3

Alpine offers multiple motorhome navigation systems for the Fiat Ducato 3. Available in various display sizes, types of installation (tablet style or flush-mount installation) and overall product designs you can choose the perfect Alpine system for your requirements and preferences.

Alpine Solutions for Fiat Ducato 3 Motorhomes:

DAB+ Digital Radio	●
Swivel Display	●
Bluetooth Hands-Free and Audio Streaming	●
Apple CarPlay and Android Auto Compatibility	●

Swivel Screen

The X903D-DU2 monitor can be turned towards the driver or co-driver. This simplifies destination input and improves display visibility even in direct sunlight.

New Design with Rotary Encoders

The modern design perfectly blends in with the dashboard of your Fiat Ducato, Peugeot Boxer or Citroën Jumper. The new rotary encoders make operation easy, especially while driving.

Motorhome Profile

If you enter the measurements and weight of your motorhome, the system will only propose routes suitable for your vehicle.

X903D-DU2 Premium Infotainment System

Compatible Motorhomes

Manufacturer	Model	Model Year
Fiat	Ducato III (250)	06/2006 ->
Fiat	Ducato III Facelift (250)	2011 - 2014
Fiat	Ducato III (290)	2014 ->

For Iveco Daily

The X903D-ID perfectly integrates in the Iveco Daily interior design, giving the illusion of floating freely on the dashboard. The high-resolution 23cm (9-inch) display is easily reachable from both front seats. Navigation maps, menus and other content are highly visible even in direct sunlight, while operation is very comfortable while driving due to the new rotary encoders. Steering remote control functions are compatible with your Alpine system.

Travel in Comfort

The X903D-ID is an elegant navigation solution for your Iveco Daily. You will be amazed by its excellent built quality and the smart design. With the built-in iGo Primo nextgen navigation system and TomTom maps with 48 countries and pre-installed trucking software, you get the best co-pilot possible.

Hands-Free Microphone

The microphone is installed in the frame of your Alpine screen for best performance.

Steering Remote

The steering remote is connected to your Alpine system and remains fully functional.

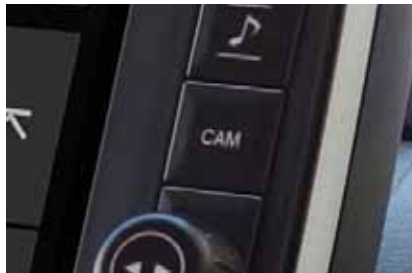

Improved Usability

New rotary encoders make operation easy - especially while driving.

Ambient Light

The built-in ambient light blends in perfectly with the overall lighting.

Manual Camera Activation

You can easily activate the rear view camera with a single push on the CAM button.

ALPINE Halo9 Navi

Welcome to the Future of Car Media

The Alpine Halo9 features a very elegant, ultrathin 9-inch touchscreen display and is now also available with built-in navigation. The Halo9 perfectly installs in any car with 1DIN radio slot, while the display position can be adjusted as desired.

New: the Alpine Halo9 is now also available with built-in iGo Primo Nextgen Navigation using TomTom maps.

Adjustable Display Angle

The ultra-thin display of the Alpine Halo9 can be tilted by 45 degrees positively and 20 degrees negatively.

Adjustable Display Height

Display height can be changed by +/- 3cm from the center, mounting depth can be changed by 2cm.

Smartphone Connection

Compatible with Apple CarPlay and Android Auto for access to music, communication and smartphone navigation.

8-inch navigation system: X803D-U **8-inch**

9-inch tablet-style solutions: INE-F904D and iLX-F903D **9-inch**

For Volkswagen T6

The X803D-U featuring an 8-inch display is a very elegant solution for VW T5 and T6. Using the Alpine installation kit KIT-802T5, the X803D-U can be installed at a much steeper angle than common navigation systems. This helps the driver to keep the screen in sight while reducing sun light reflections. Alternatively, Alpine offers two 9-inch tablet-style solutions with or without navigation (INE-F904D and iLX-F903D).

For your VW Bus

Upgrade your VW T5 or T6 with an Alpine navigation system. Choose between a flush-mount 8-inch (X803D-U) or two 9-inch tablet-style solutions (INE-F904D / iLX-F903D). All three devices blend in perfectly with your car and seamlessly connect with your vehicle electronics.

X803D-U Product Information

Detachable Sun Visor

Attach the included sun protection to improve visibility in direct sunlight. We recommend the Alpine installation kit KIT-802T5 for perfect installation.

Park Assistance Support

Park assistance, if included in your T5 / T6, can be displayed on your Alpine screen.

Multi-Function Display

Your Alpine navigation system is connected to the multifunction display in the instrument cluster to show navigation arrows, radio station names and further information.

Start-Up Screens

Alpine offers various start-up screens for download, e.g. California, T5 or T6.

Camera Systems

With Alpine cameras you will not miss a thing: benefit from the excellent image quality in all lighting conditions through HDR technology

Safe maneuvering: obtain a high level of safety and comfort through Alpine rear view cameras with 180° coverage

High Dynamic Range Cameras for Greater Safety

Alpine's all new HDR cameras are simply amazing and offer many new technologies as well as on-screen operation to make maneuvering your camper van easier and safer.

- High-resolution camera for great picture quality and high details
- Fast exposure adjustment when moving from dark to bright environments
- High contrast even in low light and bright environments
- Various camera installation kits available (see page 19)

HDR Multi-View Rear Camera HCE-C2100RD

- 4 viewing modes with distance guides: rear view, panorama view, corner view, top view
- Ultra-wide angle camera H 180° / V 125°
- Mirrored image

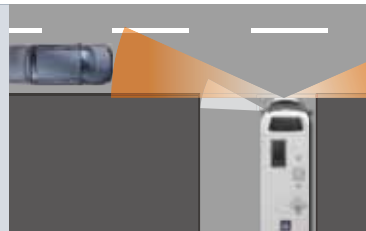

HDR Rear View Camera HCE-C1100D / HCE-C1100

- Rear view with distance guides
- Viewing angle H 131° / V 103°
- Direct Alpine connection: HCE-C1100D
- RCA connection: HCE-C1100
- Mirrored image

HDR Multi-View Front Camera HCE-C2600FD

- 3 viewing modes: panorama view, corner view, top view
- Ultra-wide angle camera H 180° / V 125°
- Non-mirrored image

HDR Side View Camera HCE-CS1100

- For side installation of your motorhome
- Also usable as greywater camera
- Viewing angle H 82° / V 60°
- Non-mirrored image

Camera Accessories

Camera Accessories

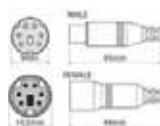

KIT-R1DUC

Rear View Camera Mount for Fiat Ducato 3
Compatible with Fiat Ducato 3, Citroën Jumper 2, Peugeot Boxer 2. Easy installation of an Alpine HDR rear camera by adapting the third brake light.

KIT-R1MHU

Multi-camera interface allows connection of up to 3 cameras to your Alpine system, including touchscreen controls of all cameras.

KWE-CAM1D

Camera adapter to connect a camera with RCA connector to your Alpine system.

KWE-CAM6D

Adapter cable for direct camera connection to a CAMOS 6-pin connection cable.

KCX-C2600B

Multi-camera expansion for installation and control of Alpine front view and rear view cameras.

KWE-EX5CAM

5 Meter camera extension cable compatible with all cameras with Alpine direct connection.

KWE-EX20CAM

20m Connection Cable to connect cameras with Alpine direct plug.

Alpine Dash Cams – Your Personal Eagle Eye on the Road

A dash cam is an on-board camera that continuously records the view through the vehicle's windshield. The recorded footage can be used as evidence in the event of a road accident. When parked, dash cams can capture video and picture evidence if vandalism is detected. Alpine offers a high-end dash cam that includes drive assist functions, as well as a regular recording model.

Full HD 1080p SONY STARVIS WiFi GPS

DVR-F800PRO

Advanced Drive-Assist Dash Cam

- 1080p Full HD recording • Sony Exmore image sensor
- Excellent night image quality • Driver support features
- Built-in GPS • Includes 32GB micro SD card

Full HD 1080p WiFi GPS

DVR-F200

Advanced Dash Cam

- 1080p Full HD recording • CMOS image sensor • Excellent night image quality • GPS antenna included • Includes 16GB micro SD card

Best Quality Drive Recording

The camera records in 1080p Full HD with 30 frames per second and features excellent recording quality even at night. GPS geo-information and driving speed are recorded as well.

Driver Warnings and Support

The DVR-F800PRO is packed with additional technology to support you while driving and keep you safe. Lane departure warning alerts you if your vehicle moves out of its lane. Forward Collision Warning helps to prevent or reduce the severity of a collision. Front Vehicle Departure Notification lets the driver know when the vehicle in front is pulling away from an intersection. You can also upload a speed camera database to the DVR-F800PRO and DVR-F200 to receive warnings when you approach a speed camera.

Day and Night Vehicle Surveillance

The DVR-F800PRO and DVR-F200 include parking mode that keeps your motorhome under surveillance even at night. If any impact by another car, bike, etc. is noted, the camera will store this video footage and you can review it later to identify and prove what happened.

- 1080p Full HD Recording
- Amazing Night View
- GPS Geo-information
- WiFi Streaming to Smartphone

- Speed Camera Warning
- Lane Departure Warning
- Forward Collision Warning
- Front Vehicle Departure Notification

Dash Cam Viewer for PC and MAC OS

The Alpine Dash Cam Viewer can be downloaded for free, allowing you to view your recorded videos and see important information such as GPS location, crash sensor data and driving speed at the time of recording. Available for Microsoft Windows 7, 8 and 10 and MAC OS 10.x.

Note: Products on this page are not sold in the United Kingdom.

INE-W611DC

6.5-inch Navigation with DVD Player

The new INE-W611DC navigation system is designed for Motorhome customers that look for a flush-mount installation, rather than a tablet-style system. This unit is an amazing all-in-one solution with built-in CD/DVD drive. The 6.5-inch touchscreen displays navigation maps, menus and movies clear and crisp. Enjoy DAB digital radio and use authorized apps in your car with Apple CarPlay and Android Auto. Take advantage of your two USB ports, allowing you to charge your phone and playback music from your USB stick at the same time.

New: the all-in-one multimedia system INE-W611DC integrates flush into your motorhome's dashboard.

Smartphone Connectivity

The INE-W611DC supports Apple CarPlay and Android Auto. Authorised apps can be used during the ride.

Built-In DVD Player

Enjoy your favorite movies while your vehicle is parked. Compatible with all common CD/DVD and audio formats.

INE-W611DC Advanced Navi Station

Built-In DAB Tuner

Enjoy digital sound quality with the integrated DAB tuner. See page 23 for Alpine DAB antennas.

Two USB Ports

2 USB ports are built in for more flexibility. You can easily charge your phone in port 1 while connecting a USB stick in port 2.

Pre-Installed Trucking Software

Trucks and motorhomes require special map databases to input the vehicle's measurements, weight, cargo type and if a trailer is used or not. These conditions are then calculated in to avoid route results that are not compatible for the vehicle. The X803DC-U and the INE-W720DC feature pre-installed trucking software, which lets you choose among 3 different motorhome sizes or create your own profile.
